B.S. in Wildlife Conservation

Unity College's B.S. in Wildlife Conservation prepares students to help preserve and manage natural resources and to gain skills for a career as a wildlife biologist. Unity College has been educating wildlife biologists for over 50 years, and now this important environmental degree is available online to anyone, anywhere. A degree focused on the conservation and management of natural populations and their changing habitats is important, especially in this time of change.

Potential Jobs: Wildlife biologist, conservation biologist, land trust biologist, fish/wildlife technician, population biologist, researcher, community educator, natural resource manager, non-profit researcher

Skills/learning: Wildlife identification, natural resource agency professional skills requirements, leadership, professional communication, data collection and analysis, field techniques, natural resource policy, research techniques, professional writing, and natural resource agency administrative structures and careers

Why Unity College

- 50 years of educating environmental leaders.
- Courses developed by experts in the field aligned with career expectations.
- Learn relevant skills to obtain your dream job.
- Learn environmental issues from a global perspective.
- Connect with professionals from around the world.
