Environmental Emergency Management and Law Enforcement Bachelor’s Degree (2019-2020)

The B.S. in Environmental Emergency Management and Law Enforcement prepares students for careers in natural resource agencies, emergency management, and law enforcement. The degree provides students with general knowledge and professional skills for a career in emergency management, environmental policy, law enforcement and administration. This program addresses the need for trained professionals ready to tackle complex issues of both mitigation of and response to natural or man-made disasters.

Graduates of the B.S. in Environmental Emergency Management and Law Enforcement will be able to:

1. Demonstrate proficiency in core environmental emergency management and law enforcement fields.
2. Demonstrate proficiency in written, oral, and interpersonal communication to diverse stakeholders in law enforcement and emergency management.
3. Evaluate ethical issues related to environmental justice and community disaster preparedness.
4. Understand policy and planning around environmental emergency management and law.
5. Apply leadership strategies to the management and law enforcement of a variety of environmental threats.
6. Develop and assess emergency management plans.
